* With Full Enrollment registration

WHY STUDY HOMEOPATHY?

Used by hundreds of thousands of Health Care Professionals worldwide, homeopathy is one of the most popular medicines in the world and is progressing rapidly. Patients are increasingly in search of safe and natural alternatives. Homeopathic medicines present multiple advantages:

- Clinically used for more than 200 years
- Safe, non-toxic and without side effects
- No interference with other medicines
- Regulated as drugs by FDA and Health Canada
- Students can start incorporating homeopathy after the first class

THE CENTER FOR EDUCATION AND DEVELOPMENT OF CLINICAL HOMEOPATHY (CEDH)

Founded in 1972, the aim of the CEDH is to give Health Care Professionals the most reliable knowledge on homeopathy in a clear, pragmatic and clinical approach. To learn homeopathy is not only to obtain new theoretical and practical knowledge, but also to acquire the know-how that will allow its integration into everyday medical practice. The teaching methodology of the CEDH is based on:

- Medical **clinical** reality
- Homeopathic medicines as a therapeutic choice, based on their place in conjunction with other therapeutic possibilities
- **Reliability** of the sources
- References to current medical knowledge

WHAT ARE THE BENEFITS OF MEMBERSHIP?

- **Lifetime membership is offered to students with Full Enrollment**
- 3,000 Health Care Professionals are being trained each year in more than 20 countries throughout the world
- More than 1,000 Health Care Professionals have taken the course in North America (USA & Canada)
- Access online education resources via student portal with Full Enrollment
- Instructors with multidisciplinary backgrounds
- A balanced teaching methodology between know-how and know-to
- More than 1,500 Health Care Professionals are on the CEDH web forum
- International congresses

THE TRAINING COURSE

The course teaches both theory and clinical applications and covers:

- The origin, pharmacology and manufacture of over 200 homeopathic medicines
- Therapeutic applications for common pathologies
- Guidelines in prescribing and case management

COURSE DIRECTOR

Ronald Boyer, M.D.

Ronald Boyer, M.D., is an internationally recognized authority in the education and practice of homeopathy. He holds a doctorate in medicine from the University of Montpellier in France.

Dr. Boyer maintained a private practice specializing in family medicine for more than 30 years, during which time he lectured extensively on the subject of homeopathy for the CEDH throughout France and the United States.
